

SIMPLE LOCKING SYSTEM

## COLOURED RECYCLING BINS

#86300

Attractive, Simple, Effective & Versatile

Recycling has now become an integral part of many companies' "Green" strategies. Today's workforce expects more than just a garbage receptacle: they want to actively recycle as much as possible. Give your employees the opportunity to actively participate in your environmental initiatives and show them how you care for the environment.

The coloured recycling bins offer a complete solution that is both versatile and attractive to help reduce the environmental impact of your office space. Each unit sits on its own dolly allowing for ease of manoeuvrability. The units can sit separately or be locked together to give maximum versatility and positioning. These large capacity units are rust, dent and fingerprint proof. The 3 coloured lids allow for easy sorting of paper, can or bottle recyclables.

The simple universal locking mechanism keeps the recycling bin tidy and also allows for the addition of extra bins if required for larger areas or offices.

## FEATURES

- Large Capacity
- Durable construction - rust, dent and fingerprint proof
- Complete with: 3 containers, 3 dollies, 1 paper recycling top, 2 can and/or bottle recycling tops
- Connect together with fasteners (included) to form a Central Recycling Area or use them individually
- Sleek design fits into any office décor
